Creative Access Building Materials Trading is a specialist in all forms of system scaffolding. Coupled with our ever-increasing number of directly employed scaffolders, all of whom are trade tested, certified, and trained to the highest standards of their craft, thus allowing the company to offer a superlative service. All scaffolders are available for hire on an hourly basis. As and when extra Manpower is required, our professional staff will arrange further Manpower in the shortest possible time, as permitted under current regulations and controls.

Every member of our team of professionals and qualified administrative staff are competent and fully committed to providing our clients with accurate, creative and cost effective advice, which will offer the best method of creating scaffolding as required, including, but not restricted to extraordinary load bearing platforms and health and safety issues relating to the use of scaffolding materials. We pride ourselves on our complete and in depth knowledge of the erection of scaffolding and the regulations applicable in both home and international jurisdictions.

We are distinguished from other scaffolding companies by offering a complete turnkey scaffolding solution. You can be confident that **CATS** will provide you with the highest quality materials, whether they are off-the-shelf or custom-made. Coupled with outstanding customer service, superior product knowledge and our team's collective years of expertise, you can be sure that whatever your scaffolding needs, **CATS** can help.

**CATS** offers a wide range of services which include consultancy, design, installation and rentals of all types of Scaffolding. We regularly work with companies specializing in unusual loads or extreme sizing. We take note of all new legislation and the ongoing amendment of internal regulations. Relying on our long established contacts in all departments of large multinational Contractors, in discussing their needs and ongoing projects.

**CATS** will assist any local companies together with multinational companies to establish operations in the Middle East., independently issue drawings, pricing structures etc, and advice in association with our local partners in all the Emirates. We comply fully with all the health & safety issues as per UK legislation and ensure they are applied together with local environment and regulations.

We specialize in the hiring out of trained and tested Scaffolders, Manpower together with scaffolding, if required, and have available for immediate hire, Scaffolders on an hourly basis for agreed periods.

Categories of available Manpower for hire to be advised when specific requirements are made known.

Excellent *Safety*, Exclusive *Service*

SCAFFOLDING | TOTAL ACCESS SOLUTIONS

**CATS** are Specializing in large scale complex projects, we have over scoping, designing, delivering and managing access and scaffold requirements for major construction and engineering contractors worldwide.

All our rental, sale and contracted scaffolding products and services are thoroughly quality checked, compliant with current legislation and regularly inspected. Our access systems are approved for use on some of the most complex and sensitive locations in the world, from live public environments such as metros and airports to hazardous sites such as petrochemical refineries or offshore oil rigs.

SAFE WORK AT HEIGHT

By working with you at an early stage we can fully understand your project requirements and recommend the safest possible approach to complete your project successfully, on time and on budget.

TUBE & FITTING TRADITIONAL SCAFFOLDING
